Office of the Dewan of Mysore,
Spl. Memo No 396
NOTE.

Dated 29th June *1927* .

1) It was complained by a few members of the Legislative Council that the present Nursing staff in our ~~two~~ premier hospitals was inadequate and besides was not properly trained in their work. I shall be glad if the question of making necessary arrangements for the training of the nurses is considered.

DEWAN.

The General Secretary to Government.)

2) Proposals will be called for from the S.S. (Mis proposes to have 4 Nursing Sisters - two posts - in the U.H & two in the K.R. Hospital during the year) -

Page 1. Reference: Dewan's minute dated 29.6.1927.

First members minute dated 22.[illegible]

Dewan's minute dated 15.3.28

The Senior Surgeon is of opinion that neither the increase in the no of scholarships or extension of the courses is necessary in regard to pupil Midwives & dayses. His recommendations in regard to the training of Nurses are abstracted above. The main drawback appears to be that the pupil nurses who are now being admitted for training will not have received sufficient general education and to secure the right sort of persons, enhanced stipends and better pay would be necessary. The Senior Surgeon has not sent detailed rules called for in para 2 of this office No 4. 5469 dated 19.11.27. Send transfer

Serial No.

(20) The question now is how to increase the number and improve the quality of our nurses and midwives.

(21) The proposals of the Senior Surgeon are:

1. to increase the No. of scholarships,
2. to raise the No. of probationers in the K.R. & the V.A. Hospitals from two to four;
3. to raise the amount of scholarships;
4. to require higher qualifications from candidates who wish to go into the training as nurses,
5. to provide for advanced training as nurses.

(22) These proposals appear to be generally suitable but it seems to me that more important than all these is the provision of facilities for women of special grades of the higher classes to undergo a training in nursing. In their view a nursing school of Hospital are necessary. A similar requirement will be partly met, in the case of midwives, by the opening of a midwives school of Hospital at Chikmagalur —

(23) Before coming to final decision, it seems desirable to appoint a Committee of Dr. Usman, Dr. Robinson

18/4/29

G.O. 458-S/Ed. 1
25-4-29.

89 The draft is quite suitable except for the following points:-

In para 10 the number of probationery Nurses in each of the Victoria and Krishnarajendra Hospitals has been raised from 2 to 5. But Government Order No.G.3224-5/Med. 194-27-20,

Note—Contd. sheet

Serial No.

dated, 7th September 1928, the Nursing establishment in these institutions has been strengthened by the addition of six Probationery Nurses on Rs.40 per mensem, the two Probationery Nurses on Rs.30/- for 2½ years being allowed to continue

(1) In confirmity with this order the number will have to be fixed at 8 instead of at 5. At the same time the anamolous distinction, in the stipend as well as the period of study, brought to the notice of Government in this office letter No.C. 2305 dated 11th March 1929-has to be abolished

(2) and a uniform course of training and stipend prescribed.

(3) 90 The scholarships to 16 ~~sick~~ Pupil Nurses will, I take it, also be enhanced from Rs.15/-to Rs.20/- The proposed additional cost of Rs.6,600/- appended in para 11 covers the enhanced scolarship to sick Nurses.

91 A revised proposition statement is appended as desired.

S. Subba Rao.
Offg. Senior Surgeon.

CHIEF SECRETARY.
25 APR. 1929

92 the revised proposition statt will have to be got verified by the Comptroller.

93 Whether there shd be two classes of nurses as Trained Nurse & Assistant Nurse (para 4 of G.O. 90) with a course of training for 3 years and 2 years respectively is for others, with refce to the Surgn's above note. the additional expenditure as to

NOTE—Contn. sheet

1633 ab

per revised proposition staff is Rs 128640/- per annum. There is no provn for this in the proposed budget for 1929-30 so to show the cost which be met is

for orders

1/5/29

Please put up a typed draft as revised. 2/5.

94) With refce to the Senior Surgeon M.O. opinion —

(1) The draft is revised fixing the number of Pro. nurses in the Vict: & the K.R. Hospls: at 8 (the present sanctioned strength).

(2) The file relating to the proposal to remove the anomoly brought to notice ~~between~~ regarding the stipend & the course of training, between the new Pro. nurses & the 2 previous ones is before the Finl: Secy: (25-4-29).

(3) The Committee made no recommendation specifically regarding the 16 pupil nurses referred to by the Senior Surgn. They said that the scholarships to midwives be raised from 20 to 40 at Rs 20.

95 At present the 16 pupil sick nurses refd to by the Senior Surgeon and 10 pupil midwives each get a stipend of Rs 15. It is not clear if the Committee meant these pupils. If so, the

Note—Contn. Sheet

WD 01684—GPB—30,000—20-4-29

General and Revenue Secretariat.

File No. 17 of 192

Serial No.

figure given by them should have been 26 and not 28. The latter number is composed of 18 dayees getting a scholarship of Rs 10/- and 10 midwives on a scholarship of R 15/- The total no: of dispensaries (sick nurses, midwives & dayees) is 44 according to the existing scale. According to the scale proposed by the S.S. in the proposition the total number would be 56 against the existing 44. The Com: has apparently left out of consideration the 16 sick nurses, whose stipend is also proposed to be increased to Rs 20/-

9b) The proposition statement shows the pay of the 12 nurses already sanctioned in the orders of the 7.9.28 as an increase to the recurring cost. It is not an increase for the purpose of this order. The cost on account of them is already in the budget.

Hence the extra cost is only on account of the scholarships above mentioned, which is Rs 550 p.m. & and on account of raising the pay of the previous 4 nurses on Rs 30/- to Rs 40:- a total of Rs 550 + 40 or 590 p.m.

116) I wish to offer the following remarks on the draft order:-

117 In Clause (1) of the draft order it is stated that after the period of training the nurses will be employed respectively in the premier hospitals at Bangalore and Mysore and in the District Hospita I presume that this employment will be against the ~~sanctioned~~ vacancies in Sanctioned posts. If so, this point should be made clear.

118 The emoluments of the nurses under training are proposed to be fixed at Rs.40/- per mensem, including ration and uniform allowances. This is the present scale of probationary nurses and the number now sanctioned

21 AUG. 1929

The C.S. said that the recommendations of the Com: need not be discussed & a short draft put up.

sixteen distributed among the two premier hospitals viz., the Victoria Hospital, Bangalore and Krishnarajendra Hospital, Mysore. I believe no increase in the number of probationary nurses is contemplated. There is only one point to which I wish to invite reference in this connection. The scale of pay of nurses in District Hospitals is Rs.20-5/5-35 plus ration allowance Rs.10/- plus clothing allowance Rs.2½. Whether nurses whose emoluments while under training would be Rs.40/- per mensem would be given the sanctioned posts on the lower scale of pay allowed to District Hospitals is not clear to me. If the scale of pay is also to be revised, the proposal involves more cost.

A

(9) The proposition statement includes revision of the pay of the Head Nurse in the Victoria Hospital, Bangalore and the Krishnarajendra Hospital Mysore. There is no reference to this revision in the draft order.

10 According to the proposition statement, the additional recurring cost of the proposals is Rs.7,312/- per annum. Sanction to these proposals will probably necessitate the revision of the scale of pay of nurses in District Hospitals as pointed out above. The Senior Surgeon is asked to point out the source for meeting the extra expenditure during the current year. Whether it is possible to provide the necessary additional funds by re-appropriation has first to be settled. As the recurring expenditure is heavy, I would respectfully suggest that the question may be

W.O.G.C.409-10
26.12.29.

1st The intention of the Committee was that the Probationery Nurses should be entertained in vacancies in the premier institutions-the Victoria and the Krishnarajendra Hospitals and also in certain posts in the Maternities and Epidemic Diseases Hospitals, which carry a pay of Rs.40/- and upwards. The Nurses required for the several District Hospitals will continue, as now, to be recruited from qualified pupil Nurses for whom a provision of 20 scholarships is proposed.

2nd 2. Although these pupil nurses have been shown in the proposition statement no reference is made to them in the draft Government Order. I would therefore suggest that para 1 may be amplified somewhat as follows:

> "The Nurses under training shall be of two classes, Probationery Nurses and Pupil Nurses. The Probationery Nurses will undergo a 3 years' training in Sick-Nursing and the Pupil Nurses one of 2 years, including a period of six months in Midwifery in each case."

The last two sentences may read as follows:-

> "After their period of training the probationary Nurses will be employed in the premier hospitals at Bangalore and Mysore as well as the Maternities and the Epidemic Diseases Hospitals according to vacancies. Their emoluments will, while under training, be fixed at Rs.40/- per mensem including the ration and uniform allowance

Note—Contn. Sheet

General and Revenue Secretariat | Misl File No. 17 of 1927.

Serial No.

They will be permitted to continue as Probationery Nurses, even after the completion of the training, until vacancies of Staff Nurses occur.

"The Pupil Nurses will be paid a stipend of Rs.20/- per mensem and after training will be employed in the several District Hospitals."

Terms of agreement pay. qualification

17 3. At present the Pupil Nurses sign an agreement to serve the Government for a period of 5 years, if called upon to do so, after training. This condition may be retained in the agreement with an added proviso that in case they cannot be provided with an appointment within six months from the date of their passing the examination they will be free to seek service elsewhere or to set up practice as private Nurses.

18 4. It is desirable to provide for a small increase in the pay of the Nurses of the District Hospitals so as to be inkeeping with the increased stipend now proposed. This question will be taken up separately and proposals submitted before budget time for the consideration of Government.

19 5. The appointments of Assistant Matrons and Probationery Nurses for the Victoria and the Krishnarajendra Hospitals have since been sanctioned and the additional funds required have been re-appropriated. This may be mentioned in the Government Order.

20 6. Lastly, I would suggest that the increased rate of scholarship to Midwives and Pupil Nurses need not apply to those already under training

Office of the Senior Surgeon
in Mysore,

Camp, Mysore, dated 6th Oct: 1927.

From

B. Mahomed Usmon, Esq., L.M. & S.,
Senior Surgeon with the Government of
His Highness the Maharaja of Mysore, Camp Mysore.

To

R. Ranga Rao, Esq., B.A.,B.L.,
General Secretary to the Government of
His Highness the Maharaja of Mysore, Camp Mysore.

Sir,

With reference to your letter No. G. 547, dated the 15th July 1927 regarding the inadequacy of the Nursing staff of the premier hospitals in the State, I have the honor to invite a kind reference to the correspondence ending with Government Order No. G. 2309-10/Med: 7-27-3 dated the 27th August 1927, sanctioning the entertainment of three extra nurses, each for the Victoria and Krishnarajendra Hospitals on a higher scale of pay than that already in force in those Hospitals, and to state that applications from properly qualified nurses have been called for. When suitable hands shall have been selected and entertained, the defect pointed out will be removed to a great extent.

As regards the training of Nurses in future, I may say that the training of nurses is at present governed by Government Order No. 1844-5/Med: 115-04-11/and 3986-7/Med: 138-06-6 dated 22nd Aug: 1905 dated the 2nd November 1907 which applies to candidates to be employed as staff nurses of the Victoria and Krishnarajendra Hospitals. According to this Government Order, each probationer has to undergo training in Midwifery for a period of one year and in sick-nursing for another period of eighteen months or a total period of 2½ years. The Local Nurses employed in the other District Head-Quarter Hospitals were

trained under the scheme sanctioned in Government Order No. 1416-20/Med: 48-15- dated the 18th August 1916 based on the Victoria Memorial Fund Rules, according to which each pupil is made to undergo two years' training, one year in Midwifery and another year in sick-nursing.

In both these schemes, the drawback lies not so much in the length of the course of training as in the lack of sufficiently high standard of general culture in the candidates applying for selection and this, again, is probably due to the unattractive scale of stipend during training and pay thereafter. I give below the rates of stipend in force in Mysore and in the Madras General Hospital.

	MYSORE.	MADRAS.
Probationary Nurses.	Pay Rs 20/- Ration allowance Rs 8. Uniform " " 2.	Pay 1st year Rs 25. 2nd " " 35 3rd " " 45 Ration allowance Rs 30 Uniform " " 50 per annum.
Ordinary pupil Nurses Rs 15/-		
Staff Nurses.	Pay Rs 55-5/3-77 Ration allowance Rs 10 or 20. Uniform allowance" 30 per annum.	Staff Nurses Pay Rs 75-2½-125. Ration allowance Rs30. Uniform " "75 Per annum.

Other Nurses Pay Rs 25-5/5-35. Ration allowance Rs 10 and Uniform allowance Rs 2½.

It must be clear that the prospects of the Nurses in Madras are sufficiently bright to attract the right class of candidates possessing the requisite general culture and sense of duty.

As regards period of training, there are three classes of Nurses in Madras according to the length and variety of the course undergone by the pupils viz:-

A two years' course in general sick-nursing at the end of which the pupil is made to undergo an oral examination in the subjects taught and is awarded a certificate declaring her as "qualified to undertake the duties of an Assistant Nurse".

A three years' course at the end of which the pupil has to undergo a written and oral examination, on passing which she is given a certificate of qualification for "the duties of a trained Nurse".

A three and half years' course (which includes three months at the Maternity Hospital and three months at the Ophthalmic Hospital) and entitling her, on passing the requisite examination, to a special certificate as a Trained Nurse, in Medical, Surgical, Gynecological and Ophthalmic nursing.

It will be seen from the above and from the scheme of instruction (enclosed herewith) followed in the Training School for Nurses at the General Hospital, Madras, that the course does not include Midwifery training, which is very useful in cases where pregnant women admitted into a General Hospital for any other treatment should need to be delivered. I would therefore retain the one year's course in Midwifery and extend the sick-nursing course to two years of which 3 months may be devoted to Ophthalmic nursing. I would also insist on the applications possessing general educational training up to the S.S.L.C. or VI Form standard, so that they may be capable of intelligently following the instruction and lectures given to them.

To secure the right sort of recruits to the Nursing cadre of the Department, it is very necessary to raise the present rates of pay and allowances of Probationary nurses. I would propose a pay of Rs 35 and a rational allowance of Rs 15 in the case of Anglo-Indians and Europeans and Rs 10 in the case of Indians and a uniform allowance of Rs 5/- per mensem, against the present rates of Rs 20, Rs 8 and Rs 2 respectively permensem. The higher rate of pay is necessary on account of the higher educational qualification expected of the candidates . There is a slight difference in the ration allowance proposed - as between Anglo-Indians and Indians — on account of differences in the standard of living. The present rate of uniform allowance viz. Rs 2/- being too low, it is proposed to be raised to Rs 5/-.

At present only two Probationary nurses are taken for training at each of the premier Hospitals. I would raise the number to four, so that a batch of eight trained nurses could be secured in three years and every year thereafter.

If the scheme above outlined meets with the general approval of Government, I shall submit detailed rules to regulate the training of Nurses.

I have the honor to be,

Sir,

Your most obedient servant,

W Thomson

Senior Surgeon, M.G.

A.R.M.

The following is the scheme for the instruction of nurse probationers and ward attendant probationers.-- male and female.

General Nursing by Assistant Matron Superintendent

Nurses and Nursing
Daily ward routine
Management of Caste patients
Ventilation or purification by air.
Cleanliness and use of disinfectants.
Bed, bedding and clothing.
Bed making.
Use of pillows and bed rests.
Use of waterproof and under sheets.
Hospital utensils.
Nursing appliances
Diet and administration of food.
Observation of the sick and note taking.
Thermometers and their use.

Medical and Surgical Nursing by Assistant Matron Superintendent.

Management and helpless patients.
Passing the catheter
Bed sores-prevention and cure
Administration of medicines
Baths
Management of surgical cases
The preparation of patients previous to operation.
Attendance at operations.
Management after operation
Method of giving enemas and suppositories.
How to clean catheters and enema apparatus.

Miscellaneous, by Assistant Matron Superintendent.

Cookery for the sick
The regulation of the hospital regarding nurses and ward attendants and diet scale.

Varieties of splints and Bandages and Bandaging by Assistant Surgeon.

Splints for the upper extremity- their names and how to prepare them for use
Splints for the lower extremity
General hints on Bandaging.
Bandages for the head and face.
Thoracic and chest bandages.
Bandages for the lower part of the trunk.
Bandages for theupper extremity
Bandages for the lower extremity.
Many-tailed bandages.
Starch and other forms of stiff bandages.
How to prepare them
Strapping.
Antispetic dressing.
Special splints.
Crutches and their uses.
Cradles and their uses
Sandbags and how to use them.

Accidents and Emergencies , by Assistant Surgeon.

Haemorrhage- three kinds.
Natural method of arrest
Application of cold.
Position of limbs.
Pressure.
Graduated compresses-
Tourniquests.
Styptics.
Other surgical methods of arresting Haemorrhages as torsion ligatures, acupressure and cauterization.
Variety of wounds and their treatment.
Foreign bodies in the eye and ear.
Burns and scalds.
Bites of animals and snakes
Drowning.
Artificial respiration
Sprain
Shock.
Insensibility
Poisons and their antidotes.

Miscellaneous , by Assistant Surgeon.

The skeleton.
Important organs of the body and their position
Weights and measures.
Medicines.
Diseases.
How to place a stretcher and place on a patient on it.
How to raise, carry and lay it down.
Different methods of conveying the sick by one or more

an additional course of instruction for three or six months if they fail ~~to~~ a second time, to be considered unfit for training A similar examination to be held at the end of the second year and those who fail to be remanded for six months. The examinations to be conducted by a Committee of Medical Officers of the General Hospital. The matron Superintendent to attend.

The qualifying ~~examination~~ certificate as a medical and surgical trained nurse to be given to those who pass the final examination at the end of third year of training. Those who fail twice in the final examination to be considered unfit~~x~~ for a further examination. The qualifying examination to be conducted by a Committee of Commissioned Officers of the General Hospital, appointed by the Superintendent ~~xxxxx~~ and to be both written and oral.

sd. H. Ramiaya,
For Secretary to Government.

"Copy."

S Srinivasa

For Senior Surgeon.

Proceedings of the Government of His Highness the Maharaja of Mysore.

Read:-

Letter No.G.109 dated the 21st August 1925, from the Senior Surgeon reporting the arrangements that now exist for training Midwives locally.

2. Correspondence ending with letter No.G.121 dated the 30th August 1925, from the same officer in the matter of training nurses for Government employment and for meeting the requirements of the public.

3. Note No.11, dated 15th September 1925, by the Senior Surgeon in Mysore in regard to the arrangements necessary for securing Nurses and Midwives required for service in the State.

Order No. 1416, -20/Med. 48-15 dated 18th August 1926.

Government agree with the Senior Surgeon that the existing arrangements for the training of Midwives are inadequate to meet the demands of the existing and prospective medical institutions and of the public and that instead of the present classes of separate midwives and nurses it is desirable to have a staff of Indian Women trained both in Midwivery and Nursing.

2. To provide for the requirements of the State in the matter, the Senior Surgeon proposes to train 48 pupils in batches of 12 every year in Midwivery and Nursing combined, the course of training extending over a period of 2 years and to give them a scholarship of Rs.10/- per mensem during the period of training and emply them thereafter as midwives or nurses, on a pay of Rs.20-1-30, with ration and clothing allowances for Nurses and the privilege of private practice in the case of Midwives. These proposals commend themselves to Government and are sanctioned. The course of training proposed is also approved and the Senior Surgeon is requested to

take necessary action in the matter at once. The cost of scholarships for the current year will be met out of the provision of Rs.1,440/- made for the purpose in the current year's Medical Budget.

3. The Senior Surgeon also proposes that quarters be provided for pupil Midwife-Nurses in Bangalore and Mysore. Government abserve that in view of the contmplated removal of the Maternity Hospital in Bangalore to another locality , it is inexpedient to add to those buildings. It is sufficient if some temporary structures are put up and the Chief Engineer is requested to submit plans and estimates for these and for the buildings required in the Victoria Hospital premises, in consultation with the Senior Surgeon the necessary provision for these works being made in the Public Works Department budget. In the case of buildings in the Victoria Hospital, the question whether there is any objection to the construction of additional buildings on the ground of overcrowiding the compound should receive due consideration. As regards Mysore, provision for pupil Midwife's quarters may be included in the proposals now stated to be pending before the Superintending Engineer for quarters for the staff of the General Hospital at Mysore. Pending permanent arrangements in the matter, the pupils may be accommodated in a portion of Nanjaraj Bahadur Chattram or the Widows' Home or the new Boarding Home for gilrs in Mysore, if accommodation is available in these institutions. If some of the widows in the Home agree to get trained as Midwife-Nurses, there will be no necessity for separate quarters for them, After the removal of the hospital to the new buildings, some of the present hospital wards in the General Hospital at Mysore may also be utilised for the purpose. In cases where quarters cannot be provided, a house rent of Rs.5/- may be granted to each pupil in addition to the scholarship.

A covenant in theform approved by the Government Advocate should be obtained from the Pupils binding them to serve

Dr. B. Mahomed Usmon, L.M.S.,
Senior Surgeon with the Government of
His Highness the Maharaja of Mysore.

Med 17-27-7

To

The General Secretary
to the Government of Highness
the Maharaja of Mysore, Bangalore.

Sir,

With reference to your D.O.Letter No.G.11086/Med. 17-..-., dated 28th March 1923, calling for comprehensive proposals on the subject of improving the scope of training of Nurses and Dayees, so as to have a large number of trained hands for our Maternities and Hospitals, I have the honour to state as follows:

Training of Midwives and Dayees.

There is, at present, provision for granting 10 scholarships of Rs.15/- per mensem each, in the case of candidates who have had sufficient literary education (at least up to the 4th standard) and 20 scholarships of Rs.10/- each for Dayees, or for the training of 28 pupils in all in Midwifery. In addition to these Pupils who get stipends from the State, candidates selected by the Countess of Dufferin's and the Victoria Memorial Funds, and by private Associations like the Mahilaseva Samaja. Thus the total number of pupil Midwives entered for training every year is about 30. This number is more than sufficient for recruitment to the sanctioned strength of Midwives which is only about 180 at present and will be ample to supply the needs of the prospective strength of 300, which is not expected to be reached for another ten years. I do not, therefore, think that any increase in the number of scholarships is necessary so far as the requir-

falling on them. For recruiting hands required for the staff of these hospitals, viz., 30 hands, there is provision for training 2 Probationary Nurses in each Hospital for a period of 2½ years and for the hands so trained, being kept on till they are absorbed in regular vacancies in the staff. Although this number would seem to be not inadequate as compared with the strength of the permanent staff, yet I would recommend the number of Probationers being raised to four in each of the Hospitals, so that the total number of of Probationers would be eight, which is sufficient as a reserve for vacancies in aprospective strength of 80, on a 10 per cent, basis, or 40 on a 20 per cent.basis.

Of the 43 hands employed in the other Hospitals, only 13 belong to the 6 District Head Quarter Hospitals, 3 for the Shimoga Hospital and 2 each for the other five Districts. The hands required for these places are recruited either from among candidates who have undergone the ordinary training in Midwifery and sick-nursing for two years under G.O. No.1416-20/Med. 48-15, dated 18th August 1916 in the local Hospitals and Maternities or those trained in big institutions in Madras, like the Maternity or General Hospital. Taking into consideration the development of the District Head Quarter Hospitals and of Medical Institutions in important Taluk Head Quarters the present strength of Nurses for all the other institutions viz., 43 will soon have to be considerably increased. I would therefore increase the number of scholarships for pupils Nurses from 10 at Rs.15/- to 15 at Rs.15/- to meet prospective needs without difficulty.

As regards the length of course, I have already explained in my letter dated 6th October 1927, that in Madras there are three kinds of certificates, viz., (1) for the qualification of an Assistant Nurse after a two years' course in sick-nursing; (2) for the duties of a "trained Nurse" after a course of three years in sick-nursing, and (3) special certificate of qualification as a medical, surgical, Ophthalmic and Gynecological Nurse. It is only in the class that a three months' course at the Maternity is given to the pupils.

6/65 Dated. 17-7-

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

Order No: @@@@@@@@ 9/12798-802 3/14.5.28.

GENERAL MISCELLANEOUS BRANCH
17 JULY 1928
Rs 536

From

Dr. B. Mahomed Usmon, L.M.S.,
Senior Surgeon in Mysore, Bangalore.

To

The General Secretary
to the Government of His Highness
the Maharaja of Mysore, Bangalore.

Sir, Med 17-27-

With reference to Government Order No. G.12798-802/Med. 17-17-8 dated the 14th May 1928, appointing a Committee to examine the facilities available in the State for training of women in Nursing and Midwifery and to submit recommendations regarding the action taken to make them adequate, I have the honour to state that the Committee met at my office at "Grace Ville" on Saturday the 7th July 1928. The following decisions were arrived at and it was resolved that they may be communicated to Government for orders.

2. The existing facilities in both the Institutions for training Nurses and Midwives are adequate and call for no special improvement.

3 As regards the courses for Nurses, it was agreed that there should be two kinds of certificates-one for the qualification of an Assistant Nurse after two years course in sick nursing and the other for the duties of a trained Nurse after a course of three years. A Midwifery course is considered very essential in both the cases and for this purpose six months should be allotted to the course, Out of the total period prescribed.

4. The emoluments while under training are at present Rs.20/- plus Rs. 3/- ration allowance plus Rs.2/- uniform allowance for Probationary Nurses. The amount is inadequate and should be raised to Rs.40/- everything included, tenable to both the classes of Nurses.

5. The standard of general educational qualification may be fixed at VI Form for the first class Nurses and the completion of the English Lower Secondary Course, in the case of ordinary Nurses.

The

The Officer granting the scholarships should at the same time, be invested with full discretionary powers in order to facilitate the selection of really intelligent women, who would make very good Nurses but, who may happen to be slightly lacking in the standard of general Educational Qualifications.

6. The scale of pay for Nurses who have undergone a two years course may be raised from Rs. 25 - 5/5 - 35 to Rs. 40 - 2 - 60. The scale of pay for Nurses who have completed the three years course should likewise be enhanced from Rs. 55 - 5/5 - 77 to Rs. 65 - 5 - 120. There need be no difference in the Ration and Uniform allowances for the Nurses in the two grades. A uniform scale of Rs. 15/- per mensem on account of Ration Allowance and Rs. 5/- for uniform, may be prescribed.

7. The Present sanctioned strength in respect of Nurses is 15 for each of the Victoria and Krishnarajendra Hospitals. Besides these, two probationary Nurses are attached to each of the Institutions. In Madras a staff of 120 Nurses is maintained to look after 600 patients or at the rate of roughly one nurse for every five patients. Judged by this standard we shall require for efficient Nursing service at least 40 Nurses for each of the two Institutions. The Committee were unanimous in this opinion that the staff of Nurses should be strengthened and that the most convenient way of doing this would be to raise the number of probationary Nurses from two to ten in each of the Institutions.

It is essential that quarters for all the probationary Nurses should be immediately provided.

Any private candidate wishing to undergo training at their own expense may be admitted by the Medical Officer in charge subject to the usual disciplinary Rules.

8. In regard to midwives, the existing number of scholarships viz., 18 should be raised to 40, the amount of scholarship being fixed at Rs. 20/- per mensem. The general Educational qualification

qualification should be fixed to at least the Kanarese Lower Secondary examination. The scale of pay after training should be fixed at Rs. 30-5-45 instead of 20 -/3/5/- 30 as at present.

I request early orders on the above proposals of the Committee.

I have the honour to be

Sir,

Your most obedient servant

SENIOR SURGEON.

Proceedings of the Government of
His Highness the Maharaja of Mysore.

-----:O:-----

R e a d : -

Government Order No. G. 12798-802/Medl. 17-27-8 dated the 14th May 1928 sanctioning the appointment of a Committee of the under mentioned Medical Officers, for examining the adequacy or otherwise of the facilities available in the State for training women in nursing and midwifery and for submitting proposals to make these professions attractive to educated women:-

Dr. B. Mahomed Usmon, Senior Surgeon (Convenor),

Dr. J.F. Robinson, Durbar Surgeon and Medical Officer, Krishnarajendra Hospital, Mysore,

Dr. S. Subba Rao, Medical Officer, Victoria Hospital, Bangalore,

Dr. B.K. Narayana Rao, Medical Officer, Minto Ophthalmic Hospital, Bangalore,

Dr. Miss Albuquerque, Lady Medical Officer, Maternity Hospital, Bangalore.

2. Correspondence ending with letter No. C. 458-4 dated the 10th September 1928 from the Senior Surgeon in Mysore communicating the Committee's recommendations and reporting upon the financial effect of the proposals made by the Committee.

Order No. G.

Dated, Bangalore, January 1930.

The main recommendations of the Committee fall under the following heads:

(1) Increasing the number of probationary nurses both in the Victoria Hospital, Bangalore and in the Krishnarajendra Hospital at

at Mysore,

(2) Classification of nurses under training their courses of study and emoluments during the period of training,

(3) Increasing the number of scholarships for midwives and raising their stipend,

Orders have already issued raising the number of Probationary nurses in each of the Victoria Hospital and Krishnarajendra Hospital to eight and sanctioning a consolidated stipend of Rs. 40/- per mensem to them while under training.

There are at present two classes of nurses under training.- Probationary nurses and sick nurses. The latter will hereafter be called pupil nurses. The Probationary Nurses will undergo a three years' training in Sick-nursing and the Pupil Nurses one of 2 years. In both the cases, a period of six months will be devoted to midwifery. The standard of general educational qualifications for probationary Nurses will ordinarily be the Sixth Form of a High School and for Pupil Nurses the completion of the English Middle School Course. But the Officer granting scholarships will have discretion to select for Probationary Nurses candidates who show an aptitude for making good nurses in spite of a slightly lower standard of qualification. Private candidates possessing the requisite qualifications may also be admit-

admitted to the courses subject to the same disciplinary rules as are applicable to Probationary and Pupil Nurses. After their period of training the Probationary Nurses will be employed in the vacancies of staff nurses in the premier Hospitals at Bangalore and Mysore or in those carrying a pay of Rs. 40/- and upwards in the Maternity and Epidemic Diseases Hospitals. In the absence of such vacancies they will be permitted to continue as Probationary Nurses and attached to the two premier Hospitals as heretofore. The Pupil Nurses will be paid a stipend of Rs. 20/- per mensem and after training will be employed in the several District Hospitals if there should be vacancies. They ~~Pupil Nurses~~ shall, after training, be free to seek service elsewhere or to set up practice as Private Nurses in case they are not provided with an appointment within six months from the date of their passing the Examination.

as recommended by the Committee,

The number of scholarships for Midwives will be ~~fixed at~~ raised from 28 to 40 with a stipend of Rs. 20/- each per mensem. The general educational qualification of the holders of Midwifery scholarships will be a pass in the Kannada Lower Secondary Examination. The revised rates of scholarships shall be applicable only to candidates that ~~will be~~ may be entertained hereafter.

The scheme of training should not be confined solely to the number of candidates

candidates required for the State Hospitals and Dispensaries but as large a number as possible should be brought under it so that the demand for private nurses may be met as far as possible and a new avenue of useful life and career of service made available for women.

2. The proposals herein sanctioned involve an additional expenditure of Rs. 550 per mensem as shown in the appended statement. The Senior Surgeon is requested to point out the source for meeting the extra expenditure during the current year and to make necessary provision therefor in future budgets. He is also requested to submit proposals detailing the courses of training of Nurses and Midwives.

3. Government wish to convey their thanks to the Committee for the valuable suggestions made by them.
